

Microsoft 365 is a suite of business applications that enables you to work together with colleagues, partners and customers from anywhere, on any device. The E3 package includes applications such as email, SharePoint, OneDrive and fully installed, local versions of Office.

Office 365 E3 enables your users to work anywhere, on any device with confidence and security. Automatically receive the latest software updates and security patches as they happen. In addition to traditional email and Office applications such as Word, Excel and PowerPoint, you can host online meetings, share documents and manage projects with Skype for Business, OneDrive, SharePoint and Yammer. To ensure security and compliance E3 also includes a range of advanced compliance and archive features such legal hold and advanced data protection.

Delivery
