

Telephone Lines

Modern Networks provides high-quality telephony across the UK. Due to our partnerships with the country's largest and longest established carriers, we offer the full range of digital and analogue telephone lines.

We only use tier 1 carriers to deliver business quality calls. Least-cost call routing reduces your charges while per second billing guarantees you only pay for the service you use. Our fraud monitoring ensures you have protection and peace of mind.

Delivery

Please contact a member of the sales team to quote for this service.

Terms of service

Monthly billing. Please allow a minimum 10 working days for service delivery.

Service provision subject to survey - dependant on spare copper pairs available. Non-standard installations may incur time related charges.
