

Microsoft Teams

Meet, call, and work from anywhere

The workplace of the future is changing to a setting where employees are working from the office or from remote locations. Microsoft Teams is the hub for teamwork that brings chat, meetings, calling, Office 365 apps, and third-party tools together, all in one place. Built with enterprise-grade security and compliance capabilities, Microsoft Teams meets the critical requirements for today's business needs, making your meetings and calls run smoothly on purpose-built devices to keep your team connected from anywhere.

Meetings made smarter

Meet smarter, stay focused, and achieve more with Microsoft Teams Meetings. Teams delivers a unique end-to-end meeting experience that features the human element of face-to-face interaction while helping people stay focused before, during and after the meeting to accomplish more together. Teams Meetings provide a seamless, scalable, and secure experience on mobile, desktop, and meeting room devices.

Smart

Save time with a smart, simple all-in-one solution

Focused

Keep everyone engaged with interactive experiences

Secure

Count on enterprise-grade security, quality, and privacy

Calling made simple

Simplify your enterprise voice services with a reliable, high-quality integrated calling solution built on the Microsoft cloud. Make and receive phone calls from anywhere – including your desk phone, mobile phone or computer. Get a modern voice solution that combines unified communications with teamwork capabilities into an all-in-one communication and collaboration solution that users love and IT trusts. And best of all, your business saves time and money with a single provider.

Simple

Simplify communications with an all-in-one solution

Connected
